The performance figures of the model portfolios shown in this document are based upon data sourced from Morningstar Direct.

Graph represents a hypothetical investment of €100,000.

Performance figures shown are net and include the reinvestment of dividends and any capital gains. Performance does not reflect the cash allocation across the portfolios or expenses associated with the management of an actual portfolio. Performance figures do not include any Platform or Advisor specific charges. The effect of these charges would be to reduce the performance levels shown. Please refer to the Key Features Document, relevant KIIDs & Rate Card for more information on charges.
